

**Tennessee** American College of  
Emergency Physicians

## **2023 Symposium & Annual Meeting** **Thursday, May 18, 2023**

### **FACULTY**

Sudave Mendiratta, MD, FACEP

### **PRESENTATION**

Mental Health

### **DESCRIPTION**

Acute mental health emergencies are a common presentation to the emergency department and evidenced based guidelines for medication therapy exist to decrease length of stay and improve patient safety.

### **OBJECTIVES & OUTCOMES**

- Discuss the impact of mental health crisis on emergency department visits.
- Define the optimal use of the TCEP/TDH acute mental health protocols.
- Identify opportunities to improve delivery of mental health care in your community.

### **DISCLOSURE**

No significant financial relationships to disclose.
